LEGS AND ARMS WITH RUBBER FEET AND HANDS

(MARKS' PATENTS.)

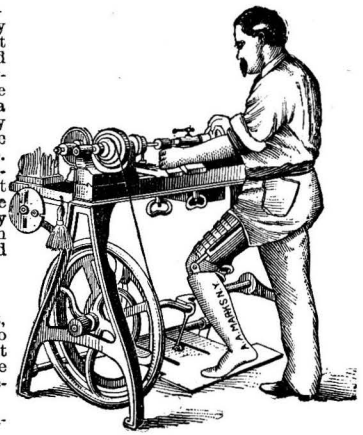

The Rubber Foot and Hand possess the most natural appearance, the greatest durability and comfort of all artificial limbs. Vast numbers of mutilated men and women are, by the use of rubber feet and hands, enabled to mingle with the rest of the world without betraying their loss or experiencing great inconvenience.

Farmers, mechanics, professionals, and even athletes, who have lost one or more of their limbs, are enabled to resume their vocations by the use of these remarkable inventions.

A. A. MARKS.

Dear Sir:—I lost my leg below the knee from gunshot wound received in the late war. As soon as my stump healed, I got a leg with an ankle joint. I wore it for a short time, and thought I liked it, but when I had one of your rubber feet applied to it, I at once discovered that I had bettered my condition, and that the ankle joint in an artificial leg was as useless as "wings on a pig." I have worn your rubber foot now about twenty years, am a machinist, and work at the lathe and forge ten hours a day as steadily as the days come and go. For ten years I worked on a foot lathe, doing the treading with my rubber foot. Sundays I take my family out for a walk, and frequently jaunt about all day. I have been so thoroughly restored by your patent that really I cannot see or feel that I am different to persons in possession of their natural limbs. I do not take a second place to anybody, either on the walk or at the bench.

WILLIAM DIETZE.

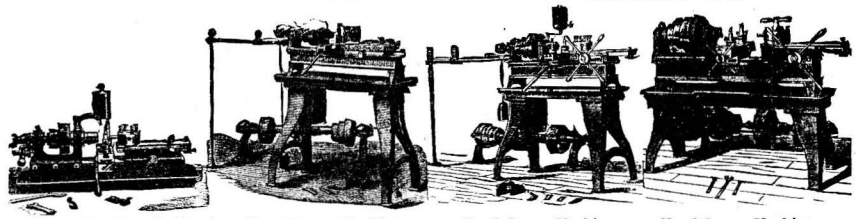

By a copyright formula, furnished by us on request, applicants can supply us with all the data necessary to secure fit and satisfactory results, while they remain at home. One-half the legs and arms furnished by us are made from measurement and profiles, without our seeing the wearer. Fit always guaranteed.

A treatise of 4'0 pages with 256 illustrations, and 1000 indorsements sent free of charge. Address,

A. A. MARKS, 701 BROADWAY, NEW YORK CITY.

* Decrease.

INCREASE IN POPULATION.

Population of New Haven for 100 years, showing increase and percentage of growth at each decade.

Decade.	Population.	Increase.	Per cent.
1790	4,448		
1800	5,157	709	15.94
1810	6,967	1,810	35.10
1820	8,327	1,360	19.52
1830	10,678	2,351	28.24
1840	14,390	3,712	34.76
1850	22,529	8,139	56.56
1860	39,267	16,738	74.30
1870	50,840	11,573	29.47
1880	62,882	12,042	23.69
1890	85,981	23,099	36.73

Lowest percentage, 1800 ..... 15.94
Highest percentage, 1860..... 74.30
Average percentage for 100 years, 35.43
Average percentage last 50 years, 44.15

The same increase for the coming as in the past decade, viz: 36.73 per cent., will make our population in 1900, 117,561.

The lowest decennial increase in 1800, viz: 15.94 per cent., makes it 99,686.

The highest, in 1860, viz: 74.30 per cent., makes it up to 149,865

The average increase for 100 years, viz: 35.43, makes it 116,444.

The average for the last 50 years, viz: 44.15, makes it 123,940.

In view of the above results and in consideration of the fact that the percentage of the last fifty years in connection with modern methods of business ought to show a more fixed increase than the average of one hundred years, it will not be presumptuous to place the population of New Haven in 1900 to at least 120,000.

CARRIAGE FEES.

For the carriage of a single passenger, with one trunk and carpet bag, hat box or other similar article, from any railroad depot, steamboat landing, or other point or place within the city limits, to any railroad depot, steamboat landing, or other place within said limits, fifty cents.

For the carriage of two passengers, with the amount of baggage stated above for each, from the same railroad depot, steamboat landing, or other point, place or destination, within said city limits at the same time, seventy-five cents, and for each additional passenger and his baggage, more than two, twenty-five cents. For each additional trunk, hat box or carpet bag, ten cents.

For carrying a child over four and under ten years of age, one-half the above rates.

For a carriage to and from a party or wedding, within the city limits, three dollars.

For a carriage to and from a funeral, three dollars.

And for the use of a hackney coach or equivalent vehicle and two horses, two dollars per hour, and at that rate for fractions of an hour.

No owner or driver of any baggage wagon or express wagon, or other vehicle for the carriage of baggage or goods of any kind from place to place in said city, shall charge, demand or in any way receive more than the following rates of prices, viz.:

For the carriage of any trunk, chest or other article of baggage, or any box, bundle or package of goods of any kind not exceeding sixty pounds in weight, from any point or place within the city limits, to any point or place within said limits, twenty-five cents, and above that weight, two cents for every additional ten pounds or fraction thereof.

Treasurer—Charles E. Graves.

Collector—Theodore A. Tuttle.

Auditors—Richard F. Lyon, Francis G. Anthony.

District Clerk—Benjamin R. English.

Regular meetings of the Board of Education are held at its office, on the first and third Friday evenings of each month.

Office Hours—Of the Superintendent, from 8¼ to 9½ o'clock a. m., and 4 to 5 o'clock p. m. on all school days.

Office open from 8¼ to 12½ o'clock, and 2 to 5 o'clock on all school days, and 9 to 11 a. m. on Saturdays.

Admission of Scholars—The Public Schools are free only to children whose parents or guardians reside in the district.

The regular time for the admission of pupils into the public schools is at the beginning of the school year in May.

The school hours are from 9 a. m. to 12 m., and from 2 to 4 p. m.

Children under five years of age will not be admitted, except to the Kindergartens. Children between four and six may be admitted to the Kindergartens.

Children must be vaccinated before they can be admitted.

Children are not allowed to attend a school outside of the sub-district in which they reside. In case there is no room in the sub-district in which they reside they may obtain from the Superintendent of Schools a ticket of admission to another school.

Non-resident pupils may be admitted upon payment of tuition at the office of the Board of Education. The charge for tuition is $60 a year in the High School, and $30 a year in all schools below the High School.

All text books and other supplies are furnished to the pupils of the district free of charge. Non-resident pupils must furnish their own books and supplies.

Evening schools are opened in October and continue during the winter, and provide instruction to persons over 14 years of age who do not attend the day schools.

The High School comprises the Classical and English departments, each with a course of four years, Scientific Department with a course of three years, and Commercial Department with a course of two years.

The hours are from 8.30 a. m. to 1 p. m.

The examination for admission to the High School is held in April, and candidates must be at least 12 years of age.

The Training Schools for Teachers are organized for the purpose of furnishing a supply of competent teachers for the schools of the district.

Graduates of the High School and others residing in the district who have received an equivalent training are admitted on the approval of the Board.

The course of training is one year, and the members of the class are required to conform to the same rules that apply to teachers.

THE

GOETZ-MITCHELL BOX-ANCHORS AND TIMBER CAPS.

BOX-ANCHOR No. 4.

GOETZ-MITCHELL TIMBER CAP.

No. 4 is our method for mill construction. A dovetail formed cast iron box, with extended base plate built into the wall; a lug in the box and a notch in the beam form the tie from wall to wall. The side guides prevent the warping of the timber, and also give air circulation, leaving no chance for dry rot. In case of fire the falling joist frees its own anchorage. Recommended by the National Association of Fire Engineers as the best system now known. Endorsed by Insurance Companies.

THE GOETZ-MITCHELL TIMBER CAP.--All parts are securely held, and still any horizontal beam or girder can fall without damage to the post. The base of upper post is bolted to the Cap, adding very much to the stiffness of a structure. This Cap, used in conjunction with No. 4 Box-Anchor, is certainly the most admirable system now used in slow-burning and mill construction work.

The increasing tendency of the public to patronize the smaller and more conservative Life Insurance companies of this country had its effect upon the business of the United States Life Insurance Co. in 1891. It was the best in the Company's history. They issue all kinds of policies—Ordinary Life, 10, 15, 20, Limited Tontine. It is the only Company that issues Endowment Policies on which the insured, by the terms of his contract, can borrow the entire reserve after the fifth or any subsequent year, which is about 80 per cent. of all premiums paid.

THE OXYGEN PARLORS

890 Chapel Street, NEW HAVEN, CONN.

The only Branch in Connecticut of the
UNITED STATES COMPOUND OXYGEN CO.,
Of Springfield, Mass.

Devoted to the treatment of chronic diseases exhibiting impure blood, unbalanced circulation or disordered nerves, by inhalations of compressed gases, especially prepared for medical use, namely: Oxygen, The U. S. Compound Oxygen, and other compounds of Oxygen as required in special cases.

These treatments remove the causes of disease easily, safely and without distress; promote nutrition; strengthen the nerves; and restore physical vigor.

They also aid all appropriate medication, and have often proved remarkably successful in those peculiar cases where drugs alone have been disappointing.

Physician's patients treated under their direction and physicians supplied with gases in hand-cylinders on short notice.

Nervous debility, nervous dyspepsia, insomnia, lung troubles, asthma, catarrh, neuralgia, rheumatism, pneumonia and headaches particularly amenable to this treatment.

The personal attention of the resident actuary H. M. Jewett M. D. is given in all cases. Consultation, trial inhalations and descriptive books free to all applicants.

Special calls outside can be made in important cases by the actuary after 6 p. m.

The UNITED STATES COMPOUND OXYGEN CO., also have large and successful treatment offices at

The Massachusetts Non-Forfeiture Law is the Nearest Approach to Equity yet Reached by State Legislation.

The STATE MUTUAL issues all its policies in conformity with said law, and every policy is prepared with a tabulated statement of its Cash and Paid-Up Values; and policy holders have not to wait till they are overtaken by misfortune and unable to pay the premiums to learn what the Company will pay for their policies on surrender, but each, at the outset, has an OFFICIAL GUARANTEE of the value of his policy for every year from its issue to maturity.

Parties desiring insurance cannot consult their own interests better than by placing the same in the State Mutual.
